

## FUME COLLECTOR

### ACCUSTRONG FC-38F

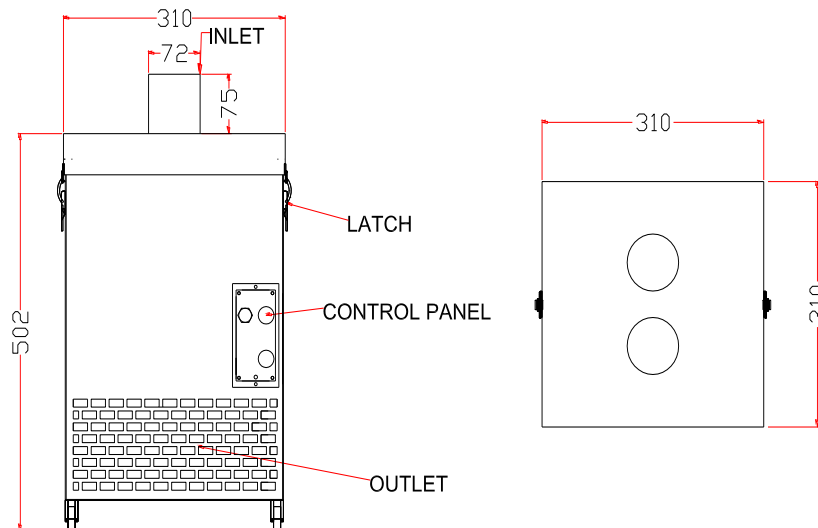

FC-38F is designed to provide efficient, cost effective control of fume and odour which generated from a variety of manufacturing and laboratory application.

The FC-38F provide a compact and inexpensive solution to air pollution control problems with simple maintenance and easy to operate.

#### SPECIFICATION

Type	Motor kW	Air Flow CFM	Filter	Static Pressure mmH <sub>2</sub> O	Weight kg
FC-38F	0.620	380	1. POLYESTER PREFILTER 2. HEPA FILTER 3. CARBON FILTER	100	15

#### STRUCTURE

#### BENEFITS AND SPECIAL FEATURES

- Insulated fan compartment gives low noise level to reduce worker irritation and increase productivity.
- Non-electrostatic operation for high reliability, low maintenance and operation cost.
- Realization of 99.97% of dust collection of the finest particle of 0.3 $\mu$ m with high-efficiency HEPA filter. .
- Applicability in small space or structure and easy mobility.
